Investments

Simple Choice Super is just like the name says... Simple, clear and uncomplicated. Easy to join online, help to find and combine other super accounts, just the one investment options, competitive fees, and simple insurance available, but only if you want it. We do more than just send you statements with numbers on a page. We also seek new ways to inform, connect and engage with our members on the issues that matter.

Simple Choice Super offers a single investment strategy based on your age – **Simple Choice Super Lifestages**. The Fund does not offer a MySuper product, therefore, we are unable to accept contributions on your behalf unless an *Application Form* has been completed. By completing an Application Form for Simple Choice Super you will be authorising for 100% of your account balance to be invested in the Simple Choice Super Lifestages investment strategy.

Please refer to the PDS, Additional Information Guide and TMD at the Simple Choice Super website for further details at www.simplechoicesuper.com.au or [Slate website at slate.co](http://slate.co).

The investment strategy of the Fund takes into account the following criteria:

- the risk involved in making, holding and realising investments, and the likely return from those investments, having regard to the Fund's objectives and its expected cash flow requirements,
- the composition of the Fund's investments as a whole including the extent to which the investments are diverse or involve the option of being exposed to risks from inadequate diversification,
- the liquidity of the Fund's investments having regard to its expected cash flow requirements, and
- the ability of the Fund to discharge its existing and prospective liabilities.

The objective, strategy and asset allocation for the Simple Choice Super's investment option is given below. The objective is not a promise or guarantee of a particular return or benefit but is utilised by the Trustee to measure the performance of the option. Part of the Fund's assets may be allocated to external fund managers and their products. Asset allocations may vary from time to time for various reasons including asset allocation decisions and market movements. The upper and lower limits of the benchmark may also vary from year to year, depending on changes to the Investment Strategy made by the Trustee.

Refer to the current Simple Choice Super Product Disclosure Statement ("PDS") including related incorporated information for more detailed information about the investment strategy and investment risks. The Simple Choice Super PDS and TMD are available by contacting Simple Choice Super on (02) 8556 7576 or by emailing info@simplechoicesuper.com.au, or downloading from the website at www.simplechoicesuper.com.au. The Slate Super PDS and TMD are available by contacting Slate Super on (02) 8074 1772 or by emailing info@slatesuper.com.au, or downloading from the website at www.slatesuper.com.au. You should consider the likely investment return and the risk and your investment time frame when choosing an investment option.

Simple Choice Super Investment performance

A superannuation funds investment performance typically varies over time. Because superannuation is a long-term investment, longer term returns (such as 5 and 10 investment returns) smooth out short term results.

Depending on the nature of each investment option (including its risk profile), an investment option may experience negative returns from time to time and it is generally not appropriate to assess the performance of an investment option by the return for a single year or other short-term periods.

Actual returns will be determined by the investment strategy adopted and prevailing market conditions. Information on investment performance relating to your Account specifically is provided in your Annual Member Statement for the year ended 30 June 2021.

Investment Performance Returns % - Financial Year 30 June 2021²

Notes:

- Returns are based on actual investment options. Returns shown for 1 year periods or longer are annualised amounts and are net of all investment fees, administration fees and taxes, excluding member direct fees. Returns are calculated using changes in the unit price. Past performance should not be relied upon as an indication of future returns.
- Compound returns since inception are compound annualised averages and are net of all investment fees, administration fees and taxes excluding member direct fees. When the 5 or 10 years compound return is unable to be determined, the since inception return is provided. Inception date 28 August 2017.
- Inception date for Simple Super Lifestage – Sand was 1 July 2020 with first members 14 July 2020.

- Inception date for Simple Super Lifestage – Sky was 1 July 2020 with first members 25 August 2020.

Neither past performance nor volatility is a reliable indicator of what may happen in the future. Neither capital nor returns are guaranteed.

Past performance is calculated net of investment fees and taxes excludes fees charged to member Accounts directly, and does not take into account inflation.

Investment strategy

The tables following contain information regarding the investment strategy of the Fund for the year ended 30 June 2021. Details of investment options shown are not a guarantee of any particular benefit or return. The investment option objectives are used by the Trustee to measure the performance of the Fund's investments.

You should consider the most up to date PDS, PDS Guides and TMD where applicable, Annual Report and any Significant Event Notices provided to you when choosing an investment option.

There are two investment strategies in the Fund for members of Simple Choice Super as at 30 June 2021:

Lifestages investment strategy

Simple Choice Super's lifestages investment solution selects from four pre-mixed investment options – Sand, Coral, Ocean and Sky – to personalise an investment strategy that's relevant to your gender, age and account balance.

IMPORTANT: If you joined Simple Choice Super before 1 July 2020, your super account will be wholly invested in our Balanced Growth investment option, which is now closed to new members. For more information about this investment option, see below or contact us. **WARNING:** When joining Simple Choice Super, it is important to consider the likely investment return and risk, to ensure that the Fund bestsuits your age, investment timeframe, risk tolerance, and where other parts of your wealth are invested.

Here's how the lifestages investment solution works: We invest your super account in one of four pre-mixed investment options based on your gender, your age and your account balance (together, your "lifestage"). Younger members with smaller account balances will generally be invested in an option that has a higher allocation of growth assets such as shares, as you have more time to withstand the rises and falls of the share market. As you age, and as your account balance grows, your account balance will move through investment options that are gradually investing more heavily in defensive assets, such as cash and fixed interest, to make your investment portfolio more stable as you approach retirement. We'll review your personal investment strategy against your gender, age and account balance annually, and change the investment option you're invested in if you meet the criteria of a new lifestage. **IMPORTANT:** You are not able to elect the investment option that you want your account balance invested in, or switch investment options.

Balanced Growth investment strategy (closed to new members)

Investment Return Objective			
CPI + 2.5% per annum over rolling six year periods (after fees and taxes)			
Investment Strategy			
The Balanced Growth investment option aims to invest in a diverse mix of assets with the majority in growth assets such as shares, and a modest investment in defensive assets such as cash and fixed interest. This option aims to provide investors with the highest possible returns consistent with a 'balanced growth' investment strategy. Specific allocations may vary but the option will retain a broad 70/30 split between growth and income assets.

Risk Level [^]			
Risk Band 6: High (4 to less than 6 estimated negative annual returns over any 20-year period).			

*Includes property securities and Real Estate Investment Trusts (REITs).

[^]Based on the Standard Risk Measure. For more information, refer to the Investment Factsheet – Balanced Growth available at www.simplechoicesuper.com.au.

Standard Risk Measure

The risk profile of the Fund's investment strategy is based on the Standard risk measure. The standard risk measure is based on industry guidance to allow you to compare investment options that are expected to deliver a similar number of negative annual returns over any 20 year period. The standard risk measure is not a complete assessment of all forms of investment risk, for instance it does not detail what the size of a negative return could be or the potential for a positive return to be less than a customer may require to meet their objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return. Customers should still ensure they are comfortable with the risks and potential losses associated with their chosen investment option(s).

Other considerations

Derivatives

The Trustee does not permit any investments directly in any futures, options or other derivative instruments. However, external managers may use derivatives in managing pooled investment vehicles in which the Trustee invests. Derivatives may be used for the purpose of hedging transactions and managing risk.

Labour standards, environmental, social and ethical considerations

Labour standards, environmental, social and ethical considerations are not taken into account in the selection, retention or realisation of investments for the Simple Choice Super investment strategy.

Please refer to the PDS, Additional Information Guide and TMD for further information on Simple Choice Super's investment strategy.

News in superannuation

This update was compiled as at December 2021 and is subject to change. For up to date information relating to taxation of superannuation, go to ato.gov.au or contact the Fund.

It's been another significant financial year, with further changes to laws by the Federal Government for superannuation, as well as amendments to support the economy through COVID-19, with certain opportunities becoming available, some of which may apply to you.

Design and Distribution Obligations (DDO) Reform

The Design and Distribution Obligations (DDO) reform which commenced on 5 October 2021 is one of the most significant changes to regulation in the financial services industry in recent times. It requires, among other regulations that the Fund makes and provides a Target Market Determination (TMD) for each product covered by the reform.

What is a TMD and when is it required

A TMD is a written document that describes the characteristics of a class of consumers that a financial product has been designed for. The TMD sets out how the product, and its key attributes meet the likely objectives, financial situation and needs of the class of consumers. A TMD must contain certain information, which can be broken down into Content and Appropriateness requirements. Additionally, the TMD will contain Distribution Conditions. A TMD cannot be a simple restatement of the content of the Product Disclosure Statement (PDS) or other disclosure documents (i.e. the Additional Information Booklet or Insurance Guides).

From 5 October, 2021, a product cannot be distributed to retail consumers without a valid TMD in place. As new products are issued or new features are added a TMD will need to be created or reviewed. Products for which a PDS must be prepared such as interests in a superannuation Fund, or a managed investment scheme require a TMD to be provided.

CONTRIBUTING AND TOPPING UP YOUR SUPER

Contributions Caps

There are limits to the amounts of contributions you are able to make to your super each financial year in order to be taxed at lower rates. These limits are called contribution caps. The cap amount and how much tax you need to pay depends on your age, the financial year that the contribution relates to and whether the contributions are concessional (before-tax) or non-concessional (after-tax) contributions.

Caps for the upcoming financial year		2021	2022
Super Guarantee (SG) contributions		9.5%	10%
Concessional contributions cap		\$25,000	\$27,500
Non-concessional contribution cap		\$100,000	\$110,000
Super co-contributions (lower Income Threshold \$37,000, Higher Income Threshold \$56,112)		Max. \$500	Max. \$500
Low income super tax offset (LISTO) Adjusted taxable income up to \$37,000 (based on Concessional contributions made to the Fund)		Max. \$500	Max. \$500
Transfer Balance Cap		\$1,600,000	\$1,700,000
CGT cap		\$1,600,000	\$1,615,000
Low rate cap		\$215,000	\$225,000
Minimum annual pension amount continues to be halved as in 2021	Under age 65	2.0%	2.0%
	Age 65 – 74	2.5%	2.5%
	Age 75 – 79	3.0%	3.0%
	Age 80 – 84	3.5%	3.5%
	Age 85 – 89	4.5%	4.5%
	Age 90 – 94	5.5%	5.5%
	Age 95 or more	7.5%	7.5%

CARRY FORWARD ARRANGEMENTS

Concessional cap – Carry forward arrangements

Since 1 July 2019, you have been able to carry forward an unused amount and increase your concessional contributions cap, but only if you had a total super balance of less than \$500,000 at the end of 30 June in the previous year.

Unused amounts of your concessional contributions cap are available to you for a maximum of five years, and will expire after this if not used.

Non Concessional contribution cap – Bring-forward arrangements

Since the 2021 financial year, you have been able to extend the non-concessional cap Bring-forward rule up to the age of 67. You may be able to make non-concessional contributions up to three times the annual non-concessional contributions cap in a single year in any one three-year-period.

That is, up until 30 June 2021, you can contribute up to \$300,000 in any one three-year period, depending on your total superannuation balance. From 1 July 2021, this increased to \$110,000 p.a. or under the Bring Forward arrangements, up to

\$330,000 in any one, three-year period, as long as your total superannuation balance remains under the Transfer Balance Cap. This means, that when you make contributions greater than the annual cap (noted above), you automatically gain access to future year caps. You can then make further non-concessional contributions after the end of that three-year period, up to your non-concessional contribution cap, provided your total superannuation balance continues to be less than the Transfer Balance Cap.

Contribution caps may change from time to time. Refer to <https://www.ato.gov.au/individuals/super/in-detail/growing-your-super/> for up to date information.

COVID-19 UPDATE

The initiative under the coronavirus Economic Response Package Omnibus Bill 2021 enabling early release from super payments from Member Accounts ceased on 31 December 1 Many Members experiencing financial difficulties were able to take advantage of the ability to apply for an early release from super of up to \$10,000 from 1 April until 30 June 2021, plus an additional amount of \$10,000 between 1 July and 31 December 2021 from their member Account.

Amounts paid from a members' super Account were tax free, did not affect Centrelink or Veteran's Affairs payments, were treated as non-assessable non-exempt income, were not be counted as income and were not considered under any income or means test.

In addition, Members who satisfied a financial hardship or compassionate condition of release could still apply for these in addition to the early release of super.

Changes to superannuation drawdowns were extended to apply to the 2021/21 financial year, with a further extension for the 2021/22 financial year announced by the Federal Government in early June 2021, with pension payments minimum amounts halved for:

- Account based annuities and pensions including transition to retirement income streams,
- Allocated annuities and pensions,
- Market-linked annuities and pensions also known as term allocated pensions.

If the Fund did not receive any new instructions from you to amend pension payments, the Trustees' default position has been for the administrator to continue to drawdown at the pre-existing level held at the end of the 2021/21 financial year. This meant, the new pension minimums continued to apply for the 2021/22 financial year.

Transition to Retirement Pensions are a form of an account-based pension, and have both minimum and maximum payments to consider when opting in and lodging a superannuation drawdown.

Further information on both Superannuation Drawdowns can be found at [ato.gov.au/super](https://www.ato.gov.au/super). note that other fees might still apply

INACTIVE ACCOUNTS AND TYPES OF UNCLAIMED SUPER

Treatment of inactive low-balance super Accounts

Superannuation legislation requires the Trustee of the Fund to transfer information and superannuation benefits to the Australian Taxation Office (ATO) when Member benefits are classified as Unclaimed Super. On receipt, the ATO will try to match said account with any active super Account there is a record of you holding.

The exception to this is where you have provided a written notice to the ATO declaring that you are not a Member of an inactive low balance Account. If this applies to you, you can authorise the Fund to provide the written notice to the ATO on your behalf. The notice must be provided to the commissioner of Taxation on or before the relevant due date for the payment to the ATO.

The notice is valid for 16 months, and after that period if your Account remains an inactive low balance Account, you will need to complete another declaration every 16 months if you wish your funds to remain in your Account.

Further information on unclaimed super monies and inactive low-balance super Accounts can be found in the Important Information section of this Annual Report or on the ATO website at

<https://www.ato.gov.au/Individuals/Super/In-detail/Growing-your-super/Inactive-low-balance-super-accounts/>.

Alternatively, if you make a contribution or rollover to your Account, make changes to your insurance, or change your investment options, before the transfer date, your Account will be considered 'active' and won't be closed or transferred to the ATO.

Inactive low-balance Accounts and unclaimed super monies – Reporting and payment requirements

There are two ATO reporting periods each year (by 31 October for the 30 June six-month period, and by 30 April for the 31 December six-month period).

1. Member aged 65 or older – your Account has been inactive for two years or more, and we have not been able to make contact with you for five years.
2. Non-Member spouse – An amount payable to a non-Member spouse as a result of a family law superannuation split – and after making reasonable efforts to contact, the non-Member spouse, and after a reasonable period has passed, we are unable to ensure that the non-Member spouse will receive the amount.
3. Deceased Member – the trustee is unable (after reasonable endeavor) to locate a beneficiary to pay your benefit to.
4. Temporary residents – temporary residents permanently leaving Australia have up to six months to claim superannuation and if not claimed the amount will be transferred to the ATO
5. Former temporary resident Member and you have not claimed your benefit after six months from your visa expiry or cancellation date and you are not Australian or New Zealand citizen.
6. Small and insoluble lost Member – when your balance is less than \$6,000 (small lost Member Account). and you are considered as:

- uncontactable – two pieces of mail sent to you have been returned undelivered, no contributions or rollovers have been received within the last 12 months, and the Fund is satisfied that it will never be possible to pay an amount to the Member (insoluble lost Member Account).
7. Holding an inactive low-balance Account – A super Account is an inactive low-balance Account if all of the following criteria are met on unclaimed money day where:
- no contribution or rollover has been received for 16 months,
 - the Account balance is less than \$6,000,
 - the Member has not met a prescribed condition of release,
 - the Account is not a defined benefit Account,
 - there is no insurance on the Account,
 - the Fund is not a self-managed super fund (SMSF) or small Australian Prudential Regulation Authority (APRA) Fund.

When is an inactive low-balance account considered active?

An inactive low-balance Account is deemed to be active if any of the following have occurred within the last 16 months. The Member:

- Changed their investment options,
- Changed or elected to maintain insurance coverage,
- Made or amended a binding death benefit beneficiary nomination,
- Notifies the Fund or ATO in writing that they are not a Member of an inactive low-balance Account, or
- Owes the super provider an amount in respect of their Membership.

Reserves

The Trustee maintains the following reserves in the Fund for the benefit of members. Reserves are held to meet licence conditions, facilitate administration efficiency and are invested for the benefit of members.

Operational Risk Financial Requirement

Trustees of super funds are required to establish and maintain an Operational Risk Financial Reserve (ORFR) which complies with prudential requirements to ensure that the Trustee has sufficient financial resources to provide for member and/or beneficiary losses arising from an operational risk event such as incorrect benefit payments due to human or system error, unit pricing errors and loss of data. The reserve is funded from fees and other costs. Expense recovery fees may include a transfer to the ORFR to meet this regulatory requirement. Please refer to the current PDS, PDS Guides and TMD for more information.

Grosvenor Pirie Super Fund ORFR (as at 30 June 2021)	2021	2020	2019
	\$'000	\$'000	\$'000
CLOSING BALANCE	466	381	227

Expense reserve

The Trustee maintains an expense reserve (ER) for costs not related to the administration of the fund. The expense reserve complies with prudential requirements and is utilised for the payment of fund fees, costs, tax and levies. Please refer to the current PDS, PDS Guides and TMD for more information.

Buy/Sell costs

When a member buys or sells units, this initiates a need for the Trustee to trade the underlying assets that relate to the particular investment transaction. This trading generates transaction costs such as brokerage, settlement costs (including custody costs), government taxes/duties/levies, bank charges and Account transaction charges which are paid from the investment option.

These transaction costs are reflected in a buy/sell spread that is taken into account in the calculation of unit prices. The buy/sell spread is the difference between the entry price and exit price of units and is an additional cost incurred by members each time they invest (including via rollovers from other funds) or withdraw funds. The buy/sell spread is retained within Simple Choice Super and contributes towards the transaction costs associated with Simple Choice Super buying or selling assets in relation to investment transactions initiated by members or relating to the administration of member Accounts.

The spread ensures that those members joining or leaving Simple Choice Super or product, or switching investment options, contribute towards these transaction costs and other investors who are not joining, leaving or switching investments at that particular time are not disadvantaged.

The buy/sell spread for the investment option is made up of the following costs:

	Buy	Sell
Simple Choice Super - Investment Strategy		
Growth	0.15%	0.15%
Lifestage - Sand	0.04%	0.04%
Lifestage - Coral	0.04%	0.04%
Lifestage - Ocean	0.04%	0.04%
Lifestage - Sky	0.04%	0.04%

Allocating net earnings to members' Accounts

As Simple Choice Super is a unitised fund, your Account balance is equal to the amount of units held multiplied by the applicable unit price(s). The value of each unit held and the unit price for each investment option changes with the value of the underlying assets of the investment option.

The unit pricing process for pooled investment options:

- We calculate the value of the underlying assets of each pooled investment option once every day.
- The value of the underlying assets is divided by the number of units on issue for that investment option.
- This is the unit price that will be applied to your transaction request.

Sometimes unit pricing errors may occur. In the event that a material unit price error is detected and

requires rectification, the Trustee may apply a fixed dollar minimum of \$20 when determining whether exited (former) members affected by the error should be compensated.

Refer to the current PDS and TMD for more detailed information about the calculation of earnings. The PDS is available by contacting us on (02) 8556 7576. Refer to your Annual Member Statement for information on the net investment performance for your portfolio of investments.

Member statements

Your Annual Member Statement was sent to your address in December 2021.

Superannuation surcharge tax

While the superannuation surcharge was abolished with effect from 1 July 2005, the ATO may still issue assessments in relation to previous years. Any amounts deducted by the Fund in relation to the superannuation surcharge tax payable will be reflected in the transaction section of your Annual Member Statement.

Temporary residents

If you have worked in Australia on a temporary visa and you have super in Australia, you can apply after you leave Australia, to have this super paid to you as a departing Australia superannuation payment (DASP).

If you have not claimed your super after you have left Australia for at least 6 months, and your visa has expired or been cancelled, your super will be transferred to the ATO as unclaimed super money. You can subsequently access your benefit from the ATO. The ATO can be contacted on 13 10 20. We are not obliged to notify or give an exit statement to you if we transfer your super to the ATO after you depart Australia.

There are limited conditions of release available to a member who is or was a temporary resident. Accounts in respect of all temporary resident members (irrespective of whether or not they have left Australia) will only be able to be released under the following conditions:

- death or terminal medical condition,
- permanent incapacity,
- departing Australia permanently – applies to temporary residents who apply in writing for release of their benefit,
- Trustee payments to the ATO under the Superannuation (Unclaimed Money and Lost Members) Act 1999, or
- temporary incapacity and/or release authorities under the Income Tax Assessment Act 1997.

Note: If you are a New Zealand citizen or you become an Australian citizen or permanent resident these changes will not apply to you.

Eligible rollover fund

As a result of legislative changes introduced in 2020/2021, all unclaimed and lost money is now transferred to the Australian Taxation Office (ATO). The SMERF is required to transfer all Member balances to the ATO by 31 January 2022. While the requirement is to transfer all Member benefits to the ATO by 31 January 2022, the Trustee of the SMERF made the decision to transfer all Member benefits to the ATO by 30 June 2021. As a result of this action the SMERF was effectively closed to accepting any further Member balances from 30 June 2021.

Disclosure of Interest

The Trustee is also the Trustee of SMERF and receives remuneration in this capacity.

The future of ERFs

The Government has been working towards the closure of Eligible Rollover Funds, however due to COVID-19 the effective date of the proposed change was deferred until 2021. The Trustee is monitoring the passage of the Treasury Laws Amendment (Reuniting More Superannuation) Bill 2021, and if passed, will issue communications to all members advising of the change.

Conflicts

The Trustee's approach to conflicts management is governed by its Conflicts Management Policy, which sets out the principles and the minimum requirements of the Trustee. Conflicts are identified, recorded and managed on an ongoing basis via the Trustee's registers of relevant duties and interests and via other related Trustee policies, systems and processes. Training and awareness with respect to the Trustee's Conflicts Management Framework is undertaken annually. Further information can be found at www.diversa.com.au/trustee/governance.

Enquiries and Complaints

The Trustee has set up a formal procedure for dealing with complex enquiries and complaints about your Simple Choice Super Account, including insurance. You can make an initial enquiry by phoning Simple Choice Super, or you can formally register your complaint by email or by writing to the Complaints Officer: A summary of the enquiries and complaints process will be provided with an acknowledgement at the time of your enquiry or complaint.

Phone: (02) 8556 7576

Write: Complaints Officer
Simple Choice Super Fund
PO Box R1979
Royal Exchange NSW 1225

We aim to resolve all complex enquiries and complaints quickly and fairly. If you are not satisfied with the final decision, or we have not responded within 90 days from the date that your complaint is received, you may lodge a complaint with the Australian Financial Complaints Authority (AFCA), our external dispute resolution (EDR) scheme.

AFCA

AFCA is an EDR scheme that deals with complaints from consumers in the financial system. AFCA replaced the Superannuation Complaints Tribunal. Strict time limits apply for lodging certain complaints with AFCA; otherwise AFCA may not be able to deal with your complaint.

To find out if AFCA can handle your complaint and determine the type of information you need to provide, AFCA contact details are as follows:
